Portfolio: ammar-agarwala.github.io

Professional Summary

Software Engineer with 5 years of experience developing and deploying e-commerce solutions on Magento 2 Open Source and Adobe Commerce (Enterprise and B2B). Skilled in custom Magento module development with PHP 8, REST and GraphQL APIs, SAP ERP integration, and headless storefronts built with React, Next.js and TypeScript. Delivered B2B and print-on-demand platforms for clients in the Middle East and the United States, with a focus on clean code, page performance and Agile delivery.

Technical Skills

- **E-commerce Platforms:** Magento 2, Adobe Commerce (Enterprise Edition), Adobe Commerce B2B, GraphCommerce, Headless Commerce, PWA
- **Backend:** PHP 8.x, Magento Module Development, REST API, GraphQL, Cron Jobs
- **Frontend:** JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Material UI, Apollo Client, TanStack React Query, jQuery, HTML5, CSS3, SCSS, Bootstrap
- **Integrations:** SAP ERP, Firebase Cloud Messaging (FCM)
- **Database:** MySQL
- **Performance:** Core Web Vitals, Google PageSpeed Optimization, Async CSS and Font Preloading
- **Tools and Practices:** Git, GitLab, Linux, Postman, Composer, Agile, Scrum, Code Review

Professional Experience

Software Engineer | Galaxy Weblinks Ltd. | Nov 2021 – Present

- Develop and maintain enterprise e-commerce platforms on Magento 2 Open Source and Adobe Commerce (EE and B2B) running PHP 8.2–8.3, owning features from requirement analysis to production deployment.

- Build custom Magento modules for B2B workflows: company credit limits, sales representative roles, incentive rule engine and wallet, monthly sales targets, service requests and support ticketing.
- Integrate SAP ERP with Adobe Commerce through custom REST APIs for catalog, price, stock, credit limit, invoice and shipment synchronization.
- Develop headless storefronts and web applications with React, Next.js, TypeScript and GraphQL, including bilingual English and Arabic (RTL) interfaces.
- Build and customize Magento storefront features for custom product design, including a Design Studio, design gallery and canvas image upload.
- Improve Google PageSpeed and Core Web Vitals by loading non-critical CSS asynchronously, preloading critical CSS and fonts, and removing render-blocking resources.
- Collaborate in Agile teams using Git and GitLab, code reviews and documented deployment checklists for staging and production releases.

Key Projects

Oryx – B2B Commerce and Sales Platform | Adobe Commerce 2.4.8 (EE + B2B), PHP 8.3, Next.js, TypeScript, Tailwind CSS, React Query, SAP, REST, GraphQL, Firebase

- B2B ordering platform for a ceramics and sanitary-ware distributor, with company accounts, credit limits, quotations and role-based access for sales reps, managers, HODs, merchandisers and warehouse coordinators.
- Built SAP ERP integration APIs for catalog, price, stock, credit limit, invoice and shipment sync.
- Developed custom modules for the incentive rule engine and wallet, monthly sales targets, service requests and support tickets.
- Built a bilingual (English / Arabic) Next.js sales-rep app with React Query, Recharts dashboards and Firebase push notifications.

DTFS – Custom Apparel Print-on-Demand Store | Magento 2.4.8 Open Source, PHP 8.2, JavaScript, jQuery, HTML5, CSS3

- E-commerce store for direct-to-film (DTF) custom apparel printing in the United States.
- Built and customized the online Design Studio, design gallery, canvas image upload and rush production options for customer-created designs.
- Improved Google PageSpeed performance by loading non-critical CSS asynchronously, preloading critical CSS and fonts, and removing render-blocking resources.

Bissell Arabia – Headless PWA Storefront | GraphCommerce, Next.js 16, React 19, TypeScript, Material UI, Apollo GraphQL, Magento

- Headless progressive web app storefront for a home-cleaning appliance brand in the Middle East, with Magento as the commerce back end.
- Built storefront pages and UI components with Next.js, React and Material UI.
- Connected the storefront to Magento GraphQL using Apollo Client and GraphQL code generation.
- Delivered a bilingual English / Arabic (RTL) experience using Lingui localization.

Education

- **Bachelor of Engineering (B.E.), Computer Engineering** | Dhole Patil College of Engineering, Pune | 2018 – 2021 | CGPA: 8.39
- **Diploma in Computer Engineering** | KJEI's Trinity Polytechnic, Pune | 2016 – 2018 | 72.75%
- **Class 12th (CBSE), PCM** | Kalidas Montessori School | 2016 | 60%
- **Class 10th (ICSE)** | Nirmala Convent School | 2014 | 69.3%

Certifications

- Full Stack Web Development – Udemy
- PHP and MySQL – Udemy
- Java – Disha Computer Institute
- Advanced Java – Disha Computer Institute
- Python – Disha Computer Institute
- Android Workshop – PHN

Academic Projects

- **Warehouse Management Web Application** | HTML, CSS, Java, JavaScript, MySQL
- **Location-Based Profile Scheduler (Android App)** | Java, Android

Languages

English (Professional), Hindi (Fluent), Gujarati (Native)
